

Report Phishing and Junk

Please inform us about phishing or junk.

This is how it works:

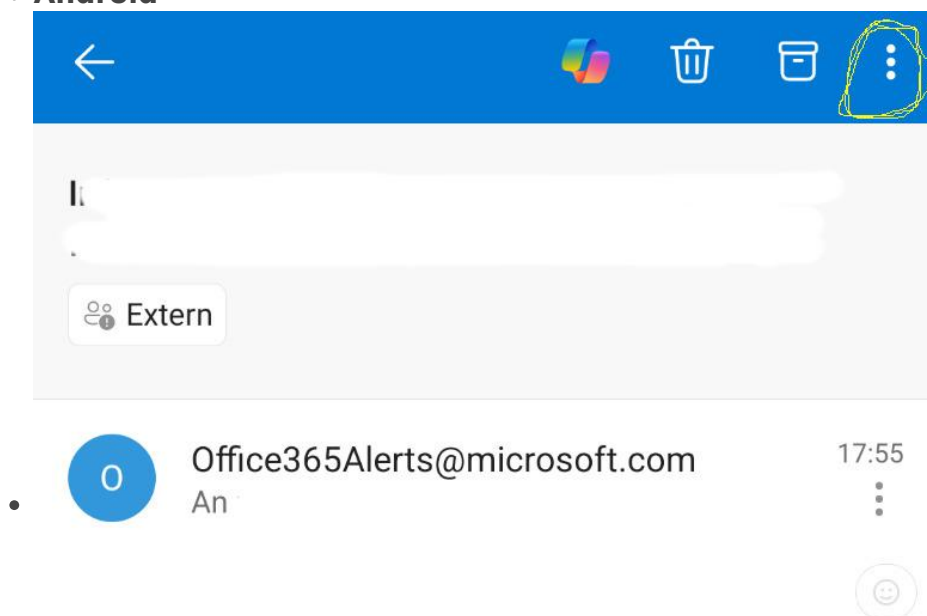

- **Outlook for Windows**

- **Outlook on the Web**

- **Android**

Important: If there is a targeted attack, please also inform us by telephone and e-mail. Targeted cases include, for example, addressing someone by their real name, referring to colleagues or special knowledge (e.g. from a post on social media, studying the homepage or an overheard conversation).
